BA.net Managed Cloud Hosting

Buy vs. Build? No Contest.

It took our developers hundreds of hours to build and test the first version of this solution. Save yourself that time, and never worry about keeping the servers up (and there are a lot of servers).

Built to Scale

Designed for uptime and reliability. Redundant servers. Deployable on 20 geographically distributed datacenters.

Cloud Firewall

Simplify your network with BA.net Cloud Firewall. Full next generation firewall capabilities without the cost and complexity of NGFW appliances

Trusted Open Source Packages

Your Cloud Servers gets all the power and flexibility of widely trusted packages like NextCloud, OnlyOffice, WordPress, PostgreSQL, MariaDB, Redis, IPTables, Linux Centos.

Dedicated Team

We do Cloud Servers all day, everyday. We can also help you with mixed environments. Windows, OSX, Linux, Cisco. Our team has 20 Years of ISP and MSP experience.

Covers Multi Office and Mobile

Serve all your employees, road warriors, teleworkers using the same flexible solution. No per user costs.
